AAMC Minority Faculty - Leadership Development Seminar (3 day)
https://www.aamc.org/professional-development/leadership-development/minfac
Provides participants with real-world guidance and tools for pursuing career advancement in academic medicine for junior faculty.
Develops key professional competencies that build skills in grant writing and communications, while expanding their network of colleagues and role models.

Early & Mid-Career
National Center For Faculty Development & Diversity (12 week)
https://www.facultydiversity.org/about-us
If your institution is a member, many resources are free or the charge is reduced.
Provides professional development and external mentoring programs and services designed to help scholars increase their research productivity and work-life balance. (and other resources – e.g. writing program)

Mid-Career
AAMC Leadership Education and Development (LEAD) Certificate Program (1 year)
https://www.aamc.org/professional-development/leadership-development/lead
Knowledge and skills necessary to support continued progress to leadership in academic medicine and science.
Cohort-based, national leadership development certificate program that focuses on four areas: Strategic vision and setting direction, developing people, developing organizations and managing effectively

AAMC Mid-Career Seminar for Women (3 day)
https://www.aamc.org/professional-development/leadership-development/midwims
Like LEAD it covers organizational leadership topics and career advancing essential for effective leaders in mission-critical activities.

Advancing Women Leaders in Medicine - Leadership Accelerator 2024 (6 months)
https://www.womeninmedicinesummit.org/leadership-accelerator
Accelerating the leadership skills of women physicians 5-12 yrs post-training, support their development of strategic self-awareness, and leverage the management literature to incorporate research into daily practice.

Senior Programs
Harvard (2 week)
https://www.hsph.harvard.edu/ecpe/programs/leadership-development-for-physicians/
To enhance leadership and management skills for medical directors and division chiefs in academic health centers.
Intensive and systematic study of the critical leadership and management issues faced by physicians in administrative positions and academic health centers.
Women's Executive Leadership Program (4 months) (not just academia)
https://www.the-impact-center.org/womensleadership
Accelerating participants’ professional development and strengthening their identity as leaders, through a curated and thoughtful curriculum, executive coach, peer support, providing participants with know-how for their own leadership paths and next steps decisions.

Executive Leadership in Academic Medicine (ELAM) (1 year)
https://drexel.edu/medicine/academics/womens-health-and-leadership/elam/about-elam/
Leadership training with extensive coaching, networking and mentoring opportunities for women candidates for leadership in academic medicine, dentistry, public health and pharmacy for associate professor or higher, with significant administrative experience. The Institutional Action Project (IAP) is a key activity supporting leadership development and organizational innovation designed implements and evaluated by the fellow.
The purpose of the IAP is to integrate the curricular resources and peer support of the fellowship in a tangible leadership contribution to the fellow's institution.

Executive Leadership in Health Care (ELH) (1 year)
https://drexel.edu/medicine/academics/womens-health-and-leadership/elh/
The Executive Leadership in Health Care program is targeted to rising women at the equivalent of the associate or full professor level who are established experts in their domain.
Candidates will have a track record of achievement in clinical program development (or other institutional-level activities that mark them as appropriate) and have aspirations to lead at the executive level in the next five years.

Early, Mid-Career & Senior in Ophthalmology
ARVO Women's Leadership Development Program (1 year)
https://www.arvo.org/education/Womens-Leadership-development-program/
Focused on leadership skill development and facilitating leadership opportunities in vision research and networking within ARVO for faculty/tenure-track or equivalent position for not more than 10 years

Academic Leadership Development Program (ALDP) – AUPO (1 year)
https://aupo.org/academic-leadership-development-program
Orientation and skills for the professional development of individuals for leadership positions in academic ophthalmology and opportunities to network with current leaders and fellow rising ophthalmologists.
MDs at least 5 years since completing postgraduate training, proposed by their current department chair, must agree to develop a project over the course of participation in the program that will benefit their department, institution, or AUPO.

AAO Leadership Development Program (1 year)
https://www.aao.org/about/leadership-development/overview
18-20 participants are selected in a competitive process following nomination from their State or Sub-Specialty organization. “The purpose of the Leadership Development Program is to provide both orientation and skill development to future leaders of state, subspecialty and specialized interest societies.”
