Association of University Professors of Ophthalmology

WE ARE PLEASED TO ACKNOWLEDGE WITH GRATITUDE OUR CURRENT SUPPORTERS:

PLATINUM: Research to Prevent Blindness, Inc.
DIAMOND: Allergan Foundation

DISCLOSURES:

This activity is supported by independent medical education grants from Alcon, Regeneron Pharmaceuticals, Inc, and Shire, an independent unrestricted education grant from Johnson & Johnson Surgical Vision, and this program was made possible in part by a grant from Bausch + Lomb.

The Educating the Educators program is supported in part by SF Match.
Welcome to the Heart of Texas and the 52nd annual meeting of the Association of University Professors of Ophthalmology! It is a pleasure to be among colleagues who share a desire to promote excellence in ophthalmic education, vision research, and eye care.

The AUPO Board of Trustees and representatives of the Program Committee have strived to deliver a program that addresses the challenges we face in our unique area of practice. Symposiums, workshops, and presentations throughout the meeting focus on providing content that will help you manage and thrive in your environment.

The Thursday program features sessions on Benchmarking, Enhancing Clinic Efficiency, and Controversies in Resident Education. Friday’s program includes the President’s Symposium, focusing on Department Reputation Management, followed by a special Research Director’s Symposium on partnering with industry. Saturday’s sessions feature a symposium on faculty development and our workshops covering topics that have been suggested by the membership. Throughout the meeting we will also proudly recognize colleagues for excellence in resident and medical student education, efforts in advocacy, and outstanding research.

A new addition to the 2018 Educating the Educators program is concurrent sessions for experienced program directors, new program directors, and medical student educators. These panel discussions allow participants to tailor their experience by hearing from peers who serve in similar roles of academic ophthalmology. The popular “Breakfast with Colleagues” Networking Roundtables are another excellent opportunity to interact with each other and share best practices. I also encourage you to attend the free paper and poster sessions to learn about innovative approaches and exciting projects taking place across our institutions.

I am confident you will find your time here productive and wish to thank all those involved in the planning and execution of this annual event including inaugural Program Committee members William Brunken, Michelle Chizek, Oscar Cruz, Susan M. Culican, Steven Feldon, Laura K. Green, Shahzad Mian, Rukhsana Mirza, Grace Sun, James Tsai, Russell Van Gelder, and Nicholas Volpe. If you have ideas or suggestions for future meetings, or would like to get more involved in AUPO activities, please contact any member of the AUPO Board of Trustees or our Executive Vice President, Steven Feldon.

Seize this opportunity to enhance your skills, network, and learn from each other. At the same time, be sure to enjoy the casual environment and experience the diverse culture here in Austin.

Warmest regards,

Keith D. Carter, MD
President AUPO

AUPO MISSION
The mission of AUPO is to serve, strengthen, and represent departments of ophthalmology; to provide support, information, and leadership opportunities to department chairs, program directors, and other faculty members; to promote excellence in ophthalmic education; to foster vision research and to promote ethical practice and excellence in eye care to ensure the best possible vision for the public.

MEETING OBJECTIVES
After attending this program, participants should be able to:

- Discuss timely information from multiple external sources that facilitate growth of the academic missions in ophthalmology: research, education, and patient care.
- Facilitate collaborative discussions leading to best practices in academic ophthalmology.
- Develop consensus around newly introduced educational techniques for training of medical students, ophthalmology residents and fellows.

TARGET AUDIENCE
AUPO’s annual meeting serves as a forum for members, associate members, and guests to attend symposia and workshops addressing topics of interest or concern for chairs, residency program directors, associate residency program directors, research directors, medical student education directors, administrators, and residency program coordinators in ophthalmology departments.

CME CREDIT
No Continuing Medical Education (CME) credits are available for this meeting.

BADGES
AUPO name badges should be worn during all sessions and social events. Participants attending both the Educating the Educators (EE) and Annual Meeting programs should switch out their name badges after conclusion of the EE program. Replacement badges can be requested at the registration desk.

MEETING ATTIRE
Business casual attire is encouraged for the duration of the meeting.

WI-FI INTERNET ACCESS
No Wi-Fi internet access is available in the AUPO meeting rooms.

CONTINENTAL BREAKFASTS
Continental breakfast is available Wednesday – Saturday mornings in the Lone Star Foyer. Review the program schedule for times.

LUNCH BREAKS
The hotel offers several options for lunch on property including: Burger Bar, Corner Restaurant, Osteria Pronto, Starbucks, as well as in-room dining. Off-site restaurants within walking distance of the hotel are also available.

BREAKFAST WITH COLLEAGUES NETWORKING ROUNDTABLE SESSIONS
Advance sign-ups and remaining availability for the two Breakfast with Colleagues Networking Roundtable sessions are posted on the AUPO message board. Seating is limited per table. If your plans change after registering please update the list accordingly. If a table is full, advance registrants have first option for the seats at the table up to 10 minutes after the session starts.

BANQUET
The banquet on Friday, January 26, is a sit-down family style dinner this year. Suggested attire is business causal. Seating is limited per table. Dietary restrictions should be discussed with staff by 9:00 am Friday, January 26. Table reservations are NOT necessary; if you feel strongly about reserving a table, please provide one name for the table to staff and a tabletop reserved sign will be placed. Seating is 10 people maximum per table; please do not request exceptions. Reserved tables must have 10 guests.

REGISTRATION HOURS
Tuesdays, January 23, 3:00 PM – 5:00 PM
Wednesdays, January 24, 7:00 AM – 5:00 PM
Thursdays, January 25, 7:00 AM – 4:00 PM
Fridays, January 26, 7:00 AM – 4:00 PM
Saturdays, January 27, 7:00 AM – 10:15 AM

QUESTIONS?
If you have questions regarding AUPO or the annual meeting, please stop by the Registration Desk during registration hours in the Lone Star Foyer for staff assistance.

Past Excellence in Medical Student Education Award Recipients

Rukhsana G. Mirza, MD (2016)
Susan Forster, MD (2015)
Linda Lippa, MD (2014)
The Association of University Professors of Ophthalmology (AUPO) was founded in 1966 by several leaders in academic ophthalmology as an organization dedicated to research and education. The mission of AUPO is to serve, strengthen, and represent departments of ophthalmology; to provide support, information, and leadership opportunities to department chairs, program directors, and other faculty members; to promote excellence in ophthalmic education; to foster vision research and to promote ethical practice and excellence in eye care to ensure the best possible vision for the public. As such, AUPO is the voice of academic ophthalmology.

Initially including only chairs of ophthalmology divisions or departments in medical schools, the membership was later enlarged to include members who are chairs or heads of departments or divisions of ophthalmology in medical schools accredited by the Liaison Committee on Medical Education (LCME) and in any institutions that sponsor accredited ophthalmology residency training programs. A category of associate membership was established for residency program directors of accredited residency training programs in ophthalmology who do not chair their department or division. Canadian chairs and their residency program directors became eligible for membership in 1996. In 2006 and 2009 respectively, research directors and medical student educators in departments or divisions of ophthalmology in medical schools or other institutions sponsoring accredited ophthalmology residency training programs, became eligible for associate membership. In 2015 and 2017 respectively, associate program directors and administrators were also included.

Special acknowledgement is due to the continuing support that has been provided by Research to Prevent Blindness (RPB) since the creation of AUPO in 1966. In addition to a very generous unrestricted donation and the support of the AUPO/RPB Resident and Fellow Research Forum, RPB joined with AUPO to match the donation of Bernard Becker, MD, initiating the Physician-Scientist Award, which was awarded in 2001 and 2006. In 2016, RPB established the David F. Weeks Award for Outstanding AMD Research. Without the active participation by RPB since its founding, AUPO certainly would not have reached its current level of importance.

The Straatsma Award for Excellence in Resident Education was established in 2002 by AUPO and the American Academy of Ophthalmology (Academy). Program Directors have been recognized for this award each year since its inception. In 2014 AUPO and the Academy established the Excellence in Medical Student Education Award.

The AUPO Fellowship Compliance Committee (FCC) was created in 2005 to provide training requirements for ophthalmology fellowships. It offers educational standards, protection of the public, institutions, and trainees, accountability and enforcement. To date, six ophthalmic subspecialties, supported by eight ophthalmic subspecialty societies, voluntarily participate in the compliance program. Its goals are accomplished by the following objectives: 1) Create standards for the participating subspecialties in establishing program requirements. 2) Define criteria for each participating subspecialty through the action of its own supporting organization(s), constituting standards for fellowship training including curriculum, research and clinical experience. 3) Determine initial compliance of individual fellowship programs through an application process. 4) Monitor compliance of individual fellowship programs with their subspecialty society’s program requirements. 5) Monitor compliant programs on a regular review basis to assure that they remain in compliance. 6) Make compliance status publicly available so that fellowship applicants may use this information in their decision, likewise mentors will have compliance status available when advising residents on fellowship.

**AUPO Secretary-Treasurers and Executive Vice President History**

Through 1989, an important position on the Board of Trustees was the Secretary-Treasurer, which was the predecessor to the Executive Vice President position. In 1990 the move to an Executive Vice President was formalized.

**AUPO SECRETARY-TREASURERS**

- Frederick C. Blodi* Jan 1971 – Dec 1972
- Gerald L. Portney* Jan – May 1977
- George O. Waring* Jun – Dec 1977, Acting
- George W. Weinstein* Jan 1978 – Mar 1982
- Randall J Olson Mar 1982 – Aug 1984
- Gerald L. Portney* Jan – May 1977

**AUPO EXECUTIVE VICE PRESIDENTS**

- Steven M. Podos* Jan 1995 – Dec 2004
- Steven E. Feldon Jan 2015 – present

*deceased
Straatsma Award for Excellence in Resident Education

Presentation: Thursday, January 25

The Straatsma Award was established through funding from the American Academy of Ophthalmology (AAO), the Association of University Professors of Ophthalmology (AUPO), and private funds, to recognize and celebrate an outstanding Program Director in ophthalmology.

Dr. Shahzad Mian is a Professor in ophthalmology and visual sciences at University of Michigan, Kellogg Eye Center and holds the Terry J. Bergstrom Collegiate Professorship for Resident Education. His practice is focused in cornea and refractive surgery and research interests include corneal transplantation techniques, ocular graft versus host disease, and eye banking. He has been director of the residency training program since 2004, serves as the Associate Chair for Education and completed the Michigan Education Scholar’s Program in 2013.

In 2003 and 2012, he received the Bergstrom Faculty Teaching Award presented by ophthalmology residents. He serves as the Vice Chair of the Residency Review Committee for Ophthalmology, as the Co-chair of the Accreditation Board for the Eye Bank Association of America, as the senior medical director of Eversight Michigan Eye Bank, and is the president of the Program Director's Council of the Association of University Professors of Ophthalmology.

Among his many specific achievements, Dr. Mian has helped develop a web-based surgical instrument tool which allows for efficient use of resident time and for the objective demonstration of ACGME competency implementation. He designed a study in collaboration with his peers in the Program Directors Medical Education Research Group in order to develop a valid tool for assessment of resident knowledge of cataract surgery instrumentation – and then to determine whether a web-based educational tool is effective in improving resident knowledge of these essential instruments prior to wet-lab training. Dr. Mian has been a pioneer and leader in enhancing the values of professionalism, patient-centered care, and systems based approaches in developing ophthalmologists for the future. His contributions extend to medical and residency education at large at the University of Michigan to his work as the leader of the Program Director’s group at AUPO and even overseas.

Excellence in Medical Student Education Award

Presentation: Thursday, January 25

The Award for Excellence in Medical Student Education provides national recognition for an outstanding medical student educator. It was established through funding from the Association of University Professors of Ophthalmology (AUPO) and the American Academy of Ophthalmology (AAO).

Dr. Evan “Jake” Waxman is the vice chair for education at the UPMC Eye Center at the University of Pittsburgh. He has served as the director of medical student activities in his department since he started at Pitt in 1999 and as residency program director since 2004. He is proud to be a graduate of the MD, PhD program at Mount Sinai School of Medicine and to have had Steven Podos as a mentor. He is equally proud to be a graduate of the residency program at UC Davis and to have had the opportunity to have trained under AUPO members Drs. John Keltner, Mark Mannis and Jeff Caspar. He is the recipient of numerous medical student teaching awards including the William I. Cohen Award for Excellence in Teaching and the Kenneth Schuitt Award recognizing the Dean’s Master Educators. He has received numerous resident teaching awards over his tenure in the department. He serves as the AAO’s liaison to the AAMC Council of Faculty and Academic Societies. He leads the AAO resident self-assessment taskforce. He served two terms on the AAO Committee for Resident Education and currently is a member of the AUPO Program Director’s Council and is a consultant to the AUPO Medical Student Educators Council.

Dr. Waxman is the founder and director of Pitt Med’s Guerilla Eye Service (GES), an outreach effort that brings eye care to neighborhoods and people that would not otherwise have access. GES makes use of portable equipment and the energies of medical students, residents and faculty to provide complete eye exams at primary care clinics for indigent patients. Dr. Waxman has been recognized with the Pitt Chancellor’s Award for Service, the Jefferson Award, the Gold Humanism Society’s Leonard Tow Award and Carnegie Science Catalyst for Professional and Community Education Award for these efforts.
RPB David F. Weeks Award for Outstanding AMD Research

Presentation: Friday, January 26

Debuting in 2017, the RPB David F. Weeks Award for Outstanding AMD Research (the “Weeks Award”) has been established through the generosity of Research to Prevent Blindness (RPB), an anonymous donor, and the Association of University Professors of Ophthalmology (AUPO), to annually recognize and celebrate an excellent researcher focused on age-related macular degeneration. The award carries the name of David F. Weeks, former President and Chairman of Research to Prevent Blindness, in honor of his contributions to the field of vision research. The award is presented at the AUPO Annual Meeting and carries an unrestricted award of $40,000, payable to the recipient directly to be used at his or her discretion.

Robert Mullins, PhD is a cellular/molecular biologist with a research focus on diseases that affect the macula. He studied biology at Wheaton College in Illinois and received his PhD in Cell and Molecular Biology from Saint Louis University. He has studied age-related macular degeneration (AMD) for over 20 years, with an emphasis on the choriocapillaris, drusen and Bruch’s membrane. A major focus of his laboratory is utilizing human donor eyes to understand the mechanisms of human disease and to use this knowledge in the development of model systems and treatment paradigms. One of the more important findings of these studies has been that vascular cell death in AMD occurs very early in the course of the disease, and that choriocapillaris loss is correlated with the size and number of drusen in human eyes. These studies also suggest that the immune system is likely to be the most prominent source of choriocapillaris cell injury in AMD. These studies have ramifications for the development of pharmaceutical and stem cell therapies for AMD. Dr. Mullins recognizes that he has been extremely fortunate throughout his career to have outstanding mentors, role models, trainees, and colleagues. The generosity of others, and especially the generosity of eye donors and their loved ones, has been the driving force behind the research in which he has been privileged to participate.

AUPO and Research to Prevent Blindness established the Resident and Fellow Research Forum to acknowledge the importance of research in ophthalmic education. The Forum is intended to encourage the most promising house officers to pursue a career in academic ophthalmology and vision research. Following are the 2018 awardees:

JOSHUA GROSS, MD, is a first-year resident (PGY2) in the Department of Ophthalmology at the University of Louisville. He has experienced a unique and diverse path into a career as a physician-scientist in ophthalmology. After excelling as a running back in collegiate football and graduating with a major in chemistry, he worked as an ophthalmic technician before entering medical school at the University of Louisville. There, he strengthened his interest in ophthalmology through many volunteer, leadership, and clinical rotations. After graduating from medical school, he was awarded the Ophthalmology Clinical Research Fellowship at Indiana University under Dr. Alon Harris where he focused on investigating the relationship between changes in ocular blood flow and ophthalmic disease progression, including glaucoma, in vulnerable populations. Additionally, he served as an instructor for an IUSM course that concentrates on minority research. He continues to be interested in ocular blood flow and its relation to disease progression, and he is currently investigating macular vascularity in patients with diabetic retinopathy utilizing OCT angiography. As a physician-scientist he looks forward to continuing to be involved in studies utilizing OCT angiography to assess retinal vascularity and its relation to ocular disease progression.

CYNTHIA MONTANA, MD, PHD is currently an ophthalmology resident at Washington University in St. Louis. Her graduate school research focused on photoreceptor cell transdifferentiation, and this exposure to vision science inspired her to pursue a career in ophthalmology. She has been fortunate to be able to continue her basic science project during residency, and believes that direct cellular reprogramming has exciting potential within the field of ocular regenerative medicine. Her clinical interest has recently shifted to glaucoma, which she finds fascinating due to the diversity of both pathologic mechanisms and treatment approaches for this disease. In the short term, she looks forward to a one-year teaching position as the chief of ophthalmic trauma at Wash U, followed by a glaucoma fellowship. Long term, she would like to remain in academia, in order to indulge her passion for both teaching and translational research.

NAKUL SHEKHAWAT, MD, MPH is a third-year ophthalmology resident at the Kellogg Eye Center, University of Michigan. He attended Vanderbilt University on a full tuition merit scholarship and received his undergraduate degree in neuroscience. He received his medical degree from Vanderbilt University and his graduate degree in epidemiology and biostatistics from Johns Hopkins University. He has published papers in *Ophthalmology*, *JAMA Ophthalmology*, *Investigative Ophthalmology and Visual Sciences*, and the *American Journal of Ophthalmology*. He has delivered paper presentations at the Association for Research in Vision and Ophthalmology, the American Ophthalmological Society, and the American Academy of Ophthalmology where he won the award for best paper during his internship year. His research has been featured in the New York Times, Time Magazine, and the U.S. News and World Report. His domestic research interests include measurement of surgical outcomes, health services research, and “big data” analysis of the epidemiology of eye diseases in the United States. His international interests include epidemiology of eye diseases, strengthening eye care delivery systems, and designing new methods for conducting clinical and epidemiologic research abroad. He plans to complete a fellowship in cornea and external disease followed by an academic appointment combining clinical/surgical practice with research.

THOMAS WUBBEN, MD, PHD, is currently a first year vitreoretinal surgical fellow at the University of Michigan, Kellogg Eye Center. He received his BS in Chemical Engineering from the University of Illinois at Urbana-Champaign and his MD/PhD at the University of Illinois at Chicago. His doctoral studies focused on drug discovery, design, and development. He characterized potential, novel, antibacterial targets and identified lead compounds that may eventually combat multi-drug resistant strains of tuberculosis. As a resident and current fellow at the Kellogg Eye Center, he has been working with Dr. Cagri Besirli to characterize how shifts in cellular metabolism portend a survival advantage to photoreceptors after retinal detachment despite persistent ischemia. His work has shown that metabolic reprogramming of glycolysis decreases photoreceptor death during acute apoptotic stress and provides evidence that reprogramming of photoreceptor metabolism is a novel therapeutic strategy for photoreceptor neuroprotection that may be utilized in many retinal disorders. He is currently examining small molecules that can reprogram photoreceptor metabolism to improve photoreceptor survival and ultimately, improve vision in individuals affected by retinal diseases. In the future, he plans to have an academic career as a vitreoretinal surgeon and clinician-scientist who continues to help his patients through science.
AUPO PROGRAM
AUPO Annual Meeting Invited Guests and Speakers

LYNN ANDERSON, PHD  
Chief Executive Officer  
Joint Commission on Allied Health Personnel in Ophthalmology  
St. Paul, MN

GEORGE B. BARTLEY, MD  
Executive Director  
American Board of Ophthalmology  
Rochester, MN

MICHAEL W. BELIN, MD

### Visit EE Posters

**MORNING SESSION**

1. Adopting a Correctional Facility Residency Rotation – Andrew Chen, MD
2. It is Time to Update and Expand Your Program Policies – Andrew J. Hendershot, MD
3. Improving Ophthalmology Care and Coordination in the Surgical Center – Casey Beal, MD
4. Effect of Personal Telephone Appointment Reminders on the No-Show Rate at a Resident Ophthalmology Clinic – Emily Li, MD
5. Physician’s Perplexity on Pay for Performance Programs – Frederick W. Fraunfelder, MD, MBA
6. A Gender-Based Analysis of Resident Self-Evaluations in Ophthalmology – Azin Abazari, MD
7. Review of Teaching Methods and Outcomes of Resident Phacoemulsification – Kevin Kaplowitz, MD
8. Development, Implementation, and Evaluation of a Pre-Residency Curriculum Using the Ophthalmology News and Education Network – Lindsay Machen, MD

**AFTERNOON SESSION**

1. Taking Wet Lab Microsurgical Skills Training Beyond Cataract Surgery for Ophthalmology Residents – Meenakshi Chaku, MD
2. Piloting of an Innovative Teaching and Learning Method Embracing Digital Technologies for Ophthalmology Residents – Misha Syed, MD
3. Impact of a Research Competition on Resident Scholarly Activity – Oluseye Oduyale
4. Development of an Open Sourced Platform to Improve Resident Transitions – Stacy Pineles, MD
5. Teaching for the Future of Ophthalmology – Thomas Hwang, MD
6. Availability of Resources for After-Hours Surgical Management of Eye Injuries – Tina H. Chen, MD
7. Near-Peer Teaching Outreach Programs to Increase Minority Physician Recruitment – Wendy F. Li, BS
8. Outcomes of Resident-Performed Complex Cataract Surgeries Over Time – Xinyi Chen, BS
9. Resident and Program Characteristics that Impact Performance on the Ophthalmic Knowledge Assessment Program (OKAP) – Xueyang Sarah Wang
10. Correlating Resident Performance to Application Components – Yasmin Bradfield, MD

AUPO Annual Meeting Program

Friday, January 26

6:30 AM – 4:15 PM  Registration Open

6:45 AM – 7:45 AM  Breakfast with Colleagues Networking Roundtables

1. Building Relationships with Your Medical School – Anju Goyal, MD
2. Employee Engagement – Michele Delio
3. How to Reward Faculty with Things Other Than Money – Steven J. Fliesler, PhD
4. Teaching Patient Safety in an Era of CLER – R. Michael Siatkowski, MD
5. Faculty Compensation: How I Utilize Benchmarks – Nicholas J. Volpe, MD
6. Establishing a Culture of Peer-Mentoring – J. Mark Petras, PhD
7. Changing Requirements: Duty Hours Monitoring and Education – Shahzad I. Mian, MD
8. Developing an Integrated or Combined Internship – Laura L. Wayman, MD
9. Diversity and Inclusion – Christopher Nagata
10. Pay for Performance: How I Measure and Incentivize Faculty – Frederick W. Fraunfelder, MD, MBA
11. International Ophthalmology – Jeff H. Pettey, MD and Grace Sun, MD
12. Building a Meaningful Wellness Curriculum for Residents – Anita Gupta, MD
13. Supporting and Managing Struggling Trainees/Learners – Michael S. Lee, MD
14. EHRs, Efficiency, and Documentation: Challenges and Solutions – Michael Chiang, MD

7:15 AM – 8:15 AM  Continental Breakfast

7:55 AM – 8:00 AM  Welcome and Announcements – Keith D. Carter, MD

8:00 AM – 9:30 AM  President’s Symposium: Reputation Management – Moderators: Keith D. Carter, MD and Joan W. Miller, MD

8:00 AM – 8:02 AM  Introduction – Joan W. Miller, MD
8:02 AM – 8:21 AM  Playing Offense: Pro-active Management of Your On-Line Reputation – Jennifer Street
8:21 AM – 8:36 AM  US News and World Report – Can you Influence the Results of the “Beauty Pageant?” – Keith D. Carter, MD
8:36 AM – 8:51 AM  Managing Local Reputation in a Large, Vertically Integrated Health Care System – Russel N. Van Gelder, MD, PhD
8:51 AM – 9:06 AM  Research Reputation: Are Tweetstorms Enough? – Jeffrey L. Goldberg, MD, PhD
9:06 AM – 9:16 AM  Maximize Social Media for your Academic Department – Robert Melendez, MD, MBA
9:16 AM – 9:30 AM  Panel Discussion

9:30 AM – 9:45 AM  Organization Reports

9:30 AM – 9:35 AM  NAEVR/AEVR – James Jorkasky
9:35 AM – 9:40 AM  SF Match – Dennis Thomatos
9:40 AM – 9:45 AM  AUPO Fellowship Compliance Committee – Michael W. Belin, MD

9:45 AM – 10:00 AM  Break and Exhibits

10:00 AM – 10:20 AM  Organization Reports

10:00 AM – 10:10 AM  National Eye Institute – Paul A. Sieving, MD, PhD
10:10 AM – 10:20 AM  Research to Prevent Blindness – Brian F. Hofland, PhD

10:20 AM – 10:45 AM  RPB David F. Weeks Award for Outstanding AMD Research

10:20 AM – 10:25 AM  Introduction and Presentation of Award – Brian F. Hofland, PhD and Russell N. Van Gelder, MD, PhD
10:25 AM – 10:45 AM  Recent Insights into the Immune System in Age-Related Macular Degeneration – Robert F. Mullins, PhD

10:45 AM – 11:30 AM  RPB/AUPO Resident and Fellow Research Forum

10:45 AM – 10:47 AM  Introduction – Russel N. Van Gelder, MD, PhD
10:56 AM – 11:05 AM  Transcription Factor-Based Photoreceptor Reprogramming – Cynthia Montana, MD, PhD
11:05 AM – 11:14 AM  Topiramate-induced Angle Closure Glaucoma: Far More Common Than Previously Reported – Nakul Shekhawat, MD, PhD
### Friday, January 26 (continued)
